

Position Type:

High School Teaching/Auto Tech - full time

Date Posted:

5/5/17

Location:

Indian Valley Vocational Center

District:

Indian Valley Vocational Center

Additional Information: [Show/Hide](#)

Auto Technology candidates must be proficient to instruct students in the following curricula:

First year students will learn the fundamentals of safety, lubrication, tire and wheel servicing, engine design, and automotive braking systems. Approximately 80% of their time is spent in the shop watching demonstrations, practicing skills on donated vehicles, and repairing live vehicles.

Second year students move on to diagnostic functions on the car's computer systems, engine theory, and also perform alignments using our state-of-the-art equipment. All students have the opportunity to learn how to provide service writer and parts person functions as the IVVC shop strives to provide a professional shop-like atmosphere.

Applicants may direct resume and cover letter to:

Joe Barbic, Director
